Dear Sir:--We thank you for your favor of recent date enclosing $252.90 and coins returned to balance our account in full to date. We note you state you are interested in coins before 1500 of Greece, and send herewith a small selection, as per invoice, among which you may find something of interest to you. Are you interested in any silver coins before 1500 of Europe?

In reference to the Irish ring money, will state that our buyer purchased this on a trip to Europe from a reputable dealer over there, and we do not know whether he could state the collection from which it came or not. He is now on his way to Europe on another buying trip. We shall write and ask him if he can tell the collection from which it came.

Dear Sir:--While in Europe Mr. Johnson ascertained that the Irish ring money we sold you was part of a find made at Ballyshannon, Co. Clare, Ireland, about forty years ago. It was found underneath the dirt floor of a cow-shed.

We have a number of interesting coins of the period before 1500 now in stock, and would be glad to send you on a selection if you so desired.

Dear Sirs:-

I am very much obliged to you for the information about the Irish Ring money.

In regard to the coins you have of the period before 1500, I think it would be advisable if you would send me perhaps not a complete list of them but one that would give some indication of what countries and series they cover so that I could then write you if any of them seemed to be of interest.

Very truly yours,

I am returning some of the coins sent with you last two invoices, and am enclosing herewith check for those that I have kept which are very satisfactory. It is hardly worth while to send me coins without a previous list which I could check and notify you which pieces would be of interest, and I shall be glad to have you send me such a list at any time.

Dear Sir:-

We thank you for your favor enclosing $157.79 and returns in full to date. Mr. Johnson has just returned from a trip to Europe and while there purchased many things of interest and some of great rarity. Very few of the goods purchased have yet arrived. We shall send you some quotations on a number of interesting pieces as soon as they come in, which we hope will be shortly. We might mention a couple of pieces which just reached here which may be of some interest to you, as follows: (1905) Corea gold 20 won ($10.00) of the Empire, struck the last year of the Empire immediately before the annexation by Japan, Obv. Dragon, Rev. A wreath of plum flowers. Corean gold is of the utmost rarity. We have never seen another specimen, uncirculated, $200,00. Ethiopia, gold coin, struck at Axum about 300 A.D. Obv. Negro king wearing helmet. Rev. Negro king with crown,(see page 864 "Historia Numorum") about fine, extremely rare, $50.00.

Kindly advise if either of the above would interest you.

Very truly,

Dear Sir:-

We are in receipt of your favor of Feb. 7th, and are shipping today by express, the pieces you ask for from our list, with the exception of the two Natria coins, which on close inspection we would prefer not to guarantee, as there is some possible question about them in our opinion. And one aes of Rome, which was sent out on approval the day before your letter reached us to a party who wished to inspect all the Aes of the Janus type we had, and which we will send on to you if it is returned, which will probably be the case, as we believe he only wanted the large size pieces. These coins are part of a large collection which we purchased which was formed in Germany before the War. We have numerous varieties of many of the coins in stock also, as this collector collected varieties of the same type. In some instances we sent you duplicates so you could have some selection.

This package should have gone prepaid, but in some manner this was overlooked, and was sent collect. Therefore, kindly deduct the express charges from your remittance, and oblige,

Very truly,

We are sending on today by insured parcel post, the coin Mr. Johnson mentioned to you in a recent letter, as per invoice. As he is not here at present, those in charge do not know just what description to give it, as the party to whom it was sent had only the number and price on the envelope. Dear Mr. Garrett;

Mr. Schulman writes me that he saw you while in Baltimore last week, and that you expressed an interest in the Colonial coins in the Brand collection. I will have a list of such of these coins as may interest you prepared and will send it to you in the near future. As you of course know, the Brand collection is a gigantic accumulation of coins and practically every series of every period is abundantly represented. So if there is any other series you would either like to see or have quoted to you, please let me know. I will give the matter my very best attention.

Hon. John W. Garrett,

Baltimore, Maryland.

Dear Mr. Garrett;

I enclose herewith a list of some of the Brand Colonial silver coins. The copper Colonial coins which contain most of the rarities are now being worked into shape, and there are also a number of rare silver pieces which are not yet listed. The collection is so large and unwieldy that it is going to take a long time before everything is in order. If any of the enclosed interest you I will be glad to send them to you on approval and will also send you later lists of the Colonial as we get them in shape.

Dear Sirs:-

I am much interested in the list you sent me with your letter of October 27th, of the coins which you have for sale from the Brand Collection, but many of the prices seem very high.

There are two pieces, nevertheless, that I should like to consider, and should be glad if you would send them to me on approval, at the same time seeing if you cannot reduce the prices. They are:

The 1694 'God preserve New England' Crosby [illegible]

The 1849 Columbus Company pattern.

Dear Sir;

In accordance with your favor of recent date, we are sending today, by Registered Mail, the two coins you wish to inspect at net prices as per invoice. The New England half penny is the Parmelee specimen and is illustrated in that catalogue. Mr. Adams knew that the Columbus Company pattern existed, but at the time he wrote his book they did not know of its whereabouts. It is probably unique. I also note your remarks about the prices of some of the other pieces and have forwarded your letter to Mr. Brand. None of these coins have so far been offered to anybody.

Hon. John W. Garrett
Garett Building

Dear Sir:

Several years ago I sold you a number of patterns of private gold coins from the Brand Collection.

This week I came across a pattern of a private gold coin which, to the best of my knowledge, is entirely unpublished and issued by a company not hitherto known to have struck coins.

The piece is:

> $2.50 silver coin with milled edge, of the Sierra Nevada Mining Company, dated 1853.
>
> Obverse, 13 stars, small Liberty Head to right.
>
> Reverse, name of the Company. Eagle on olive branch, copied from the United States Quarter Eagle. Small star above the eagle's head, value beneath eagle.

The coin is obviously contemporary and apparently has seen considerable circulation, probably as a dime. Price - $150.00, which I think is moderate for a presumably unique pattern of a private gold coin.

Very truly yours,
